

Welcome to the Sweet Life of Fourth Grade!

A Sneak Peek in Our Classroom

Room 203 is a great place to make friends and learn new things! This year in fourth grade, you will have the opportunity to learn more about your favorite subjects. In math, we will be using our problem solving skills, learning more about fractions, place value, practicing multiplication and division and much more! Our social studies lessons will have us learning more about being a responsible citizen as well as learning about our home state. We also will be running the Meadowview Mart! In science, we are going to be exploring topics like light and sound, electricity, and our Earth. Reading is a lot of fun in fourth grade; we will be reading novels in different genres, as well as short stories, poetry, and different types of mythology. We have new reading books this year. We will also be doing different types of writing. I hope that gives you a little idea of what we'll be learning this year!

Our classroom has a lot of fun things! We have a great library, where you can find a fun new book to read. In our classroom, we have ball chairs, wobble stools, and padded chairs to sit in. If you like desk chairs, we have those too! Our classroom has LOTS of m&ms. I think you will find our learning space just as fun as I do!

I really cannot wait to meet all of you on the first day of school. Fourth grade is a lot of hard work, but also a lot of fun! I will see you soon!

It will be a arvelous and emorable year!

Meet Mrs. Misulonas

I am SO excited to start this school year with you! I have been at Meadowview for over 20 years, and I LOVE teaching 4th grade!

I live in McHenry with Mr. Misulonas and our 2 boys, who are both in high school. We will share lots about our families this year. My family and I love to bake and travel and watch movies and play sports and play games and read books. I spend a lot of time on sports' fields cheering for my boys, whether they are playing soccer, football, or tennis. I also enjoy making jewelry and hanging out with my other family and friends.

I cannot wait to learn more about all of you!
